

¡Hola y bienvenido a nuestra casa!

Hello and welcome to our home!

Estimado huésped, nos complace recibirte aquí en Cura Marina Premium y queremos asegurarnos de que disfrutes de unas vacaciones memorables y entretenidas. Esperamos que hayas tenido un cómodo y agradable viaje hasta nuestra propiedad. Por favor, siéntete como en casa y familiarízate con ella.

Dear Guest, we are pleased to welcome you here at Cura Marina Premium and want to ensure you have a memorable and enjoyable holiday. We hope you had a comfortable and pleasant journey to our property. Please make yourself at home and familiarise yourself with it.

Puedes encontrar toda la información sobre la propiedad, check-in y check-out, las instrucciones de los electrodomésticos y recomendaciones sobre qué ver, comer y beber en la zona dentro de este libro de bienvenida.

You can find all the information about the property, check-in and check-out, appliance instructions and recommendations on what to see, eat and drink in the area within this welcome book.

Si hay algo que no cumpla con tus expectativas, que eches en falta o que podamos hacer para que tu estancia sea más cómoda no dudes en comunicárnoslo a nuestro whatsapp.

If there is anything that does not meet your expectations, that you miss or that we can do to make your stay more comfortable, do not hesitate to let us know on our whatsapp.

+34 617 738 540

curamarinapremium@gmail.com

Finalmente, esperamos que tu tiempo aquí sea placentero y relajante. Nos encantaría saber qué te ha parecido la estancia y esperamos que vuelvas a visitarnos en el futuro. ¡Disfruta de tus días de descanso!

Finally, we hope that your time here will be pleasant and relaxing. We'd love to hear what you thought of your stay and hope you'll come back again in the future - enjoy your days off!

Un cordial saludo de Pepe Rodríguez.

Kind regards from Pepe Rodríguez.

The Accommodation

The Cura Marina Premium holiday home is fully refurbished. It has a living room with air conditioning, flat screen TV and sofa bed, a balcony with stunning views of the swimming pools and the beach, a bathroom with washer/dryer, and a separate bedroom with air conditioning, flat screen TV and safe. The kitchen area has a dishwasher, oven/microwave, large fridge, pantry and cleaning cabinet.

House rules

As a general rule you can enter the flat from 14:00 on your arrival day and must leave before 12:00 on your departure day. However, it is possible to stay later at no extra cost, as long as there are no other guests arriving on the same day (please ask us about this possibility).

Restrictions

Sorry, but pets are not allowed.

The flat is non-smoking, smoking is only allowed on the balcony.

Parties and stag and hen parties are not allowed.

We would also love to hear from you before you leave. We set ourselves very high standards and work to ensure that everything is spotless and ready for your arrival. You can find sheets of paper at the end of this book.

Bedroom cupboard

- Bed linen, cot linen, extra blankets and pillows
- Luggage rack and medium-sized armchair
- Safe, iron and ironing board
- Beach chairs and umbrella

Location and surroundings

It is located on the Playa del Cura beach in the municipality of Mogán and is characterised by being a quiet and relaxing area that enjoys a fairly sunny climate. The beach has pebbles and dark sand, easy access and moderate waves. At 100 metres from the beach is the complex Cura Marina 2 where our house is located, situated in front of the sea and has a large solarium with two outdoor swimming pools, sunbeds, showers, toilets, pool bar and is surrounded by landscaped areas. In a place that will allow you to walk comfortably to the shopping centre, bus stops or taxi to move to any point of the island.

Tourism in Gran Canaria

Visiting Gran Canaria is much more than just going to the beach and sunbathing, the island offers a lot of hidden places that you will fall in love with and you will find picturesque villages, dream beaches, incredible landscapes, a rich gastronomy and a lot of things to see and do.

- Mogán, the most picturesque harbour of Gran Canaria

Known as the "Canarian Venice", this small fishing village is one of the most picturesque on the island and one of the must-see places in Gran Canaria. Its streets are full of whitewashed houses, whose windows and doors are framed in yellows, reds, blues... All of them full of leafy bougainvilleas in every shade you can imagine.

Mogán is undoubtedly one of the most beautiful villages in Spain. It also has a small beach where you can take a dip and a pleasant harbour with several restaurants where you can enjoy Canarian gastronomy with views of the boats and yachts that are anchored there.

- Playa de Amadores, the most "Caribbean" beach in Gran Canaria

This artificial beach was built on an old ravine. Its sand is white and its waters are turquoise. In addition, its bay shape is perfect to avoid the waves and the wind, so bathing there is like going into a swimming pool, albeit with the temperature of the Atlantic. At Amadores beach you will find showers, toilets, shops, restaurants, etc..

- Anfi Beach, a real paradise

Its waters are turquoise and crystalline, and look like a giant swimming pool. You can swim in them or take part in a variety of water activities. If you go to Anfi del Mar we recommend eating at Maroa Club de Mar, a nicely decorated place with plenty of vegetation, hammocks and Balinese beds where you can enjoy a nice meal at a very good price.

- The dunes of Maspalomas

This protected natural area of more than 400 hectares will leave you open-mouthed. Its dunes can reach up to 10 metres high and change continuously with the winds. You will feel like you are in the middle of the desert, but with the sea breeze in the background. There you will also find a brackish water pool where you can observe a great diversity of birds that come here to refresh themselves or drink. It is recommended to access the dunes through the path that crosses the Hotel Riu Palace, you will find the best views.

Any time of the day is a good time to visit the dunes of Maspalomas, but the ideal time is to spend the morning on Maspalomas beach and watch the sunset from the dunes. When the sun goes down the sand is no longer burning and it is the perfect time to roll and jump on them.

- Enjoying the beautiful village of Agüimes

Agüimes is one of the most beautiful villages to see in Gran Canaria. Visiting it won't take you more than a couple of hours due to its small size. Visiting the parish church of San Sebastián and strolling through the surrounding streets full of colourful houses and stones is a delight.

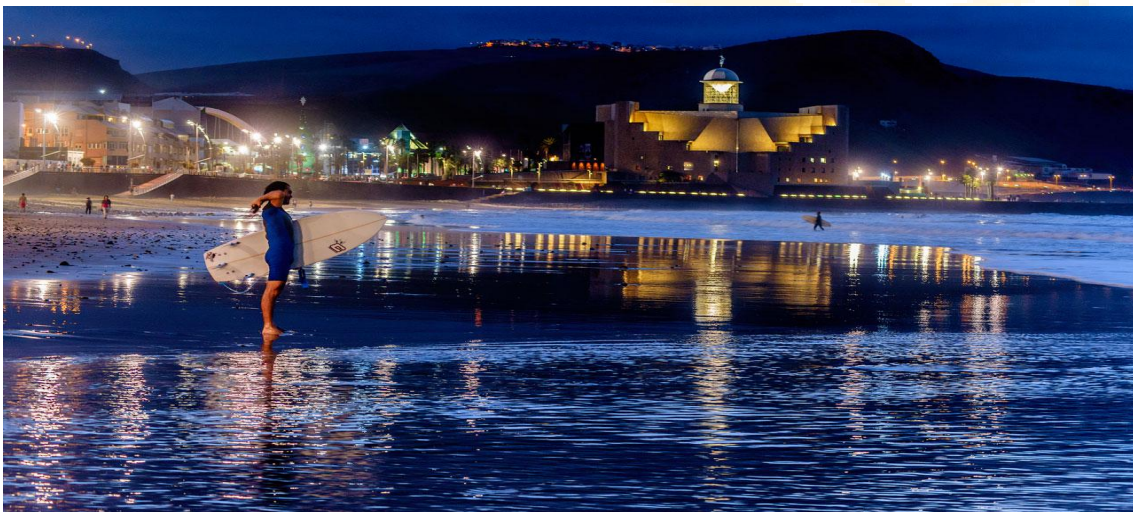

- Barranco de las Vacas, some very curious rock formations

One of the most fashionable landscapes to see in Gran Canaria is the Barranco de las Vacas, a geological canyon that has been shaped by the force of water over thousands of years to give rise to these curious formations that are reminiscent of the canyon in the USA.

- Las Palmas de Gran Canaria, the island's capital city

No one can leave the island without visiting the capital and the most important city to see in Gran Canaria. We recommend a stroll through the Vegueta neighbourhood, the historic centre of the city, shopping in Triana street, a visit to the Cathedral and a stroll along the promenade of Las Canteras beach to the modern Alfredo Kraus auditorium.

- Visit the village of Tejeda

It is a beautiful village full of whitewashed houses surrounded by mountains. The village is small but it is well worth a stroll through its streets, as it is considered one of the most beautiful villages in Spain.

- Walking up to Roque Nublo

Roque Nublo is one of the symbols of the island, a volcanic rock 80 metres high, situated at 1800 metres above sea level. If the day is clear you will be able to see the island of Tenerife from there.

To get there you will have to take a hiking route that starts at La Culata, but if you prefer the shorter option you can drive to the Degollada de La Goleta car park and take a shorter walk of 3.3 kilometres round trip.

- Teror, the town that we love

Nestled in the mountains at an altitude of over 500 metres is the village of Teror, one of the most beautiful villages in Gran Canaria.

Its historic centre has been listed as a site of cultural interest. Walking along the beautiful Calle Real de la Plaza, full of colonial houses, where you will find the Basilica del Pino, the Episcopal Palace and the town hall are some of the things you can do in Teror.

- Visiting the colourful town of Arucas

The church of San Juan, the most beautiful basilica on the island, is located there.

The pedestrian streets (Gourié and León y Castillo) in the centre of the village are very picturesque, with colourful colonial-style façades and bars where you can eat well and tasty food for very little money.

Also, don't miss the municipal park where the house of Gourié is located, which houses the municipal museum of Arucas. But if Arucas is famous for something, apart from its church, it is for being the birthplace of the famous Arehucas Rum, its factory is one of the largest in Europe.

- Walking through the fishing village of Agaete

In the northwest of the island lies Agaete, one of the most beautiful fishing villages. You will find a historic centre full of colonial houses with their beautiful wooden balconies, picturesque narrow streets full of fishermen's houses with seafaring decorations, a small pebble beach with wooden decking, several little shops and a lot of restaurants where you can eat the best fish of the island at an exceptional price. You can also enjoy swimming in the cove called Las Salinas de Agaete.

Equipment

Living room

- Smart TV 55
- Dining table with 6 chairs (200 x 45 x 45, extendable to 90cms)
- Cupboard unit (120 cms)
- Tall unit for crockery and cutlery
- Sofa with folding bed (135cms) and chest of drawers
- Air conditioning
- Accessories (alexa loudspeaker)

- Included 1 Gigabit Internet with Wifi, Netflix
- Security lock on front door (Pin/Fingerprint/NFC)

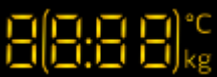

Oven / Microwave Balay 3CW5178B0

1. Screen

The symbols of the active functions and time functions are displayed.

	Microwave	Use plastic cap only in this mode.
Tipos de calentamiento		
	Hot air	40° Raising yeast dough / defrosting 100-230° Baking and roasting on one level
	Pizza Mode	100-230° Preparing pizzas and dishes requiring high internal heat
	Turbogrill	100-230° For roasting poultry, whole fish and large meat pieces
	Grill	For grilling flat food (steaks, sausages or toast for grilling with levels: 1 min, 2 med and 3 max)

	Active microwave power level 90 w - For defrosting food 180 w - For defrosting and continued cooking 360 w - For simmering (meat and delicate foods) 600 w - For heating on low heat 900 w - For heating liquids
	Selected temperature or weight for automatic programmes.
	Indicates that the appliance is heating up. If a heating mode is set, the bars fill from bottom to top as the cooking compartment heats up. With the grill function, the bars light up completely immediately. With the microwave function, the bars do not light up. When preheating, the optimum point for placing food will be reached when all four bars have illuminated.
	Selected operating time.

2. Touch buttons

The functions of the appliance can be set using the touch fields. The corresponding values are shown on the display.

	Switching the device on/off		Child safety lock (long press)
	Microwave power levels		Rapid warm-up
	Set heating rates		AquaClean cleaning function
	Automatic programmes		Adjust time
	Adjust temperature / Weight		Start /stop

3. Adjustment area

Power levels, temperature or time can be adjusted according to the selected function.

Quick operation of the device

- Start /stop

Press the button 

Using the microwave

- Open the door, insert the food and use the plastic lid.

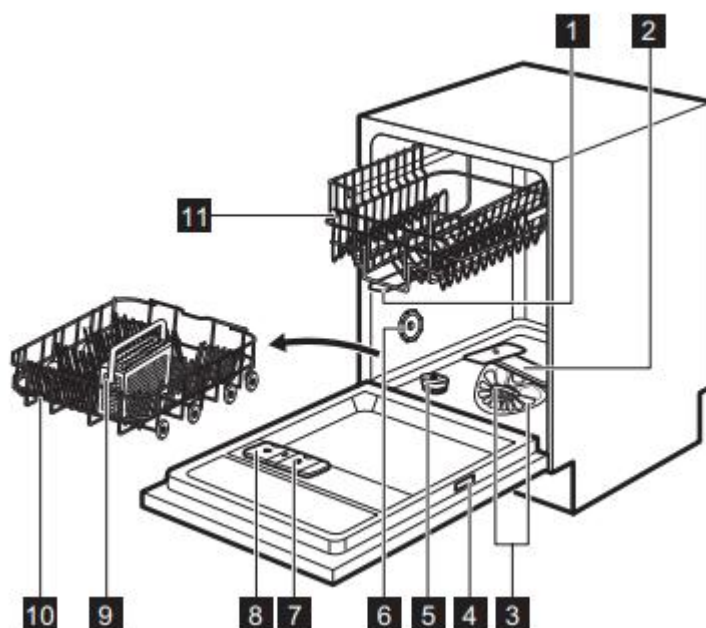

Initially the microwave mode is selected, but if it is not, press the button  to select it. Use the - and + buttons to adjust the power level (90w, 180w, 360w, 600w, 900w).

- Adjust the time by pressing the button  and the - or + buttons. You can also slide your finger between the - and + to increase or decrease the time.
- Press the button  to start operation.
- When the time is up, an acoustic signal will sound and it will pause automatically. You can also pause it manually with the button  or switch off the appliance with the button .

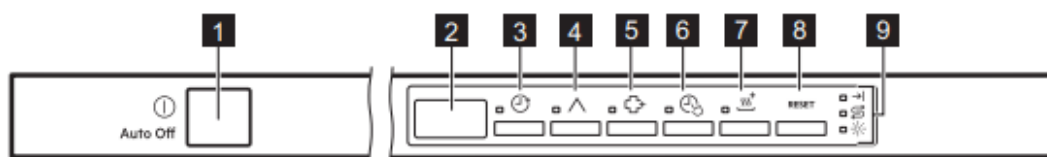

- Using the oven

- Open the door, insert the food and do not use the plastic lid.
- Set the type of heating with the button  and the temperature with the button  and the buttons - ó +.
- Press the button  and wait until the oven has preheated  (when all four bars have lit up).
- Set the cooking time by pressing the button  and the buttons - ó +.
- Press the button  to start.

P4 	• Normal or light soil • Delicate crockery and glassware	• Wash 45 °C • Rinses • Dry	• XtraDry

- Open the door and press the power button **1**
- Insert a washing tablet into the dishwasher.
- If the rinse aid indicator is illuminated , it indicates that the reservoir needs to be refilled **7**.
- Select the programme with the  button (P5 is recommended for a short wash without heavy soiling).
- Close the door (the floor lights up red indicating that it is in operation).
- When the wash is finished, the floor lights up green and the door opens automatically for more effective drying.

Washer-dryer Candy CBWD 8514D-S

Detergent drawer

The detergent draw is split into 3 compartments as illustrated in **figure 9**:

- **compartment "1"**: for prewash detergent;
- **compartment "2"**: for special additives, softeners, starch fragrances, etc.;

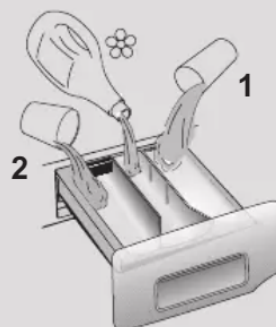

WARNING:

only use liquid products; the washing machine is set to automatically dose additives at each cycle during the last rinse.

- **compartment "2"**: for washing detergent.

⑨

QUICK USER GUIDE

This washing machine automatically adjusts the level of the water to the type and quantity of washing. This system gives a reduction in energy consumption and a saving in washing times.

Program selection

- Turn on the washing machine and select the required program.
- Adjust the washing temperature if necessary and press the required "option" buttons.

DRYING

If you would like the drying cycle to begin automatically after washing, select the programme required using the DRYING SELECTION button.

Or you can finish the wash and then select the drying programme and load size.

- Press the **START/PAUSE** button to start washing.
- At the end of the programme, the message "End" will appear on the display or, on some models, all wash stage indicator lights will turn on.

Wait until the **DOOR LOCKED** light has gone out before opening the door.

- Turn off the washing machine.

For any type of wash, see the program table and follow the operating sequence as indicated.

WASHING

Whites

An intensive wash. The final spin at maximum speed gives more efficient removal.

Cottons

This program is suitable to clean normally soiled cotton laundry and it is the most efficient program in terms of combined energy and water consumptions for washing cotton laundry.

Cottons + Prewash

This programme has been designed to remove the stronger stains from cotton white clothes. The prewash guarantees the tough dirt removal. Add into compartment "1" a quantity of detergent equal to 20% of that used for main wash.

Mixed

The washing and rinsing optimise the speed and rhythm of the drum action and water levels. The gentle spin, ensures a reduced formation of creases in the fabric.

Baby Care

This program allows you to wash all baby clothes getting a perfect clean and sanitizing effect, setting the temperature at 60°C minimum. To optimize the result of the sanitizing effect we recommend the use of powder detergent.

Daily 59 Min.

This specially designed programme maintains the high quality wash performance whilst greatly reducing the wash time. The programme is designed for a reduced load (see table of programmes).

Rapid (14/30/44 Min.)

Washing cycle suggested for low loads and slightly dirty. With this program it is recommended to reduce the quantity of detergent normally used, in order to avoid unnecessary waste. Selecting the RAPID program and acting on the button you can choose one of three programs available.

Rinse

This program performs 3 rinses with an intermediate spin (which can be reduced or excluded by using the appropriate button). It is used for rinsing any type of fabric, for example after a wash carried out by hand.

Drain + Spin

The program completes the drain and a maximum spin. It is possible to delete or reduce the spin with the SPIN SPEED button.

Delicates

This program has reduced periods of drum rotation during the cycle and is particularly suitable or washing delicate fabrics. The wash cycle and rinses are carried out with a high level of water to ensure the best performance.

Hand/Silk

This programme allows a delicate washing cycle for garments specified as "Hand Wash only" and laundry items made from Silk or specified as "Wash as Silk" on the fabric label.

Wool

This program performs a wash cycle dedicated to the wool fabrics that can be washed in a washing machine, or the articles to be washed by hand.

DRYING

Dry Wool

Low temperature drying programme, ideal to dry woollen clothes with maximum care and softness, reducing rubbing of fabrics and avoid possible felting. It's suggested to reverse clothing before drying. Timing is related to the amount of the washing and the spin speed selected for the wash. The cycle is suitable for small loads up to 1 kg (3 sweaters).

Mixed (Low Heat)

Low temperature drying programme recommended for synthetics and mixed fibres (always refer to the laundry care label).

Cottons (High Heat)

High temperature drying programme recommended for cottons and linen items (always refer to the laundry care label).

Select the degree of dryness that you require:

EXTRA DRY

(suitable for towels, bathrobes and bulky loads).

IRON DRY

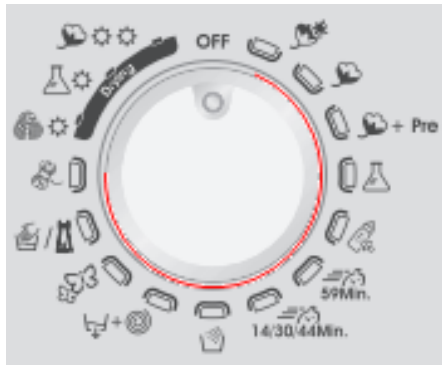

(that leaves the laundry ready for ironing).

CUPBOARD DRY

(for items that will be put away without ironing).

Washing cycle

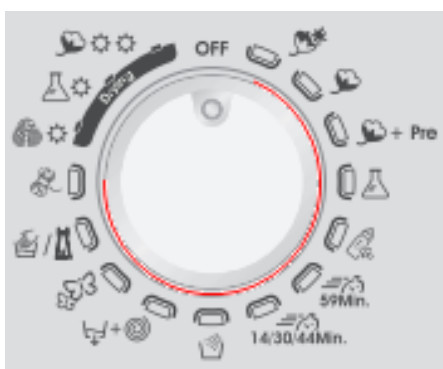

- Open the drawer, choose the detergent and put in the right amount.
- Select the washing programme, if you select a quick wash use the E key to choose the time (14/30/44 min).
- Use the F key if you want to change the temperature.
- Press the START/PAUSE button.
- When you have finished, turn the programme selector to OFF position.

Drying cycle

- Turn the programme selector to the most suitable drying programme.
- Select the drying degree you need using D key (extra, for ironing or for wardrobe).
- Press the START/PAUSE key.
- When finished turn the programme selector to OFF position.

Automatic washing/Drying cycle

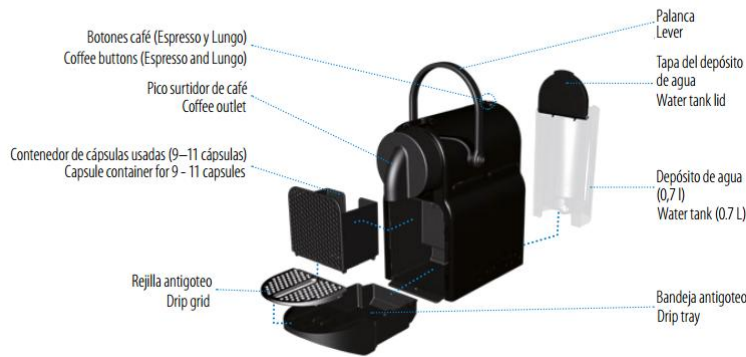

- Open the drawer, choose the detergent and put in the right amount.
- Select the washing programme, if you select a quick wash use the E key to choose the time (14/30/44 min).
- Select the degree of drying you need using the D key (extra, for ironing or for wardrobe).
- Press the START/PAUSE key.
- When finished turn the programme selector to OFF position.

PREPARACIÓN DE CAFÉ
COFFEE PREPARATION

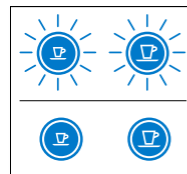

1. Enjuague el depósito de agua y llénelo con agua potable.

1. Rinse then fill the water tank with potable water.

2. Pulse el botón Espresso o Lungo para activar la máquina.

2. Press the Espresso or Lungo button to activate the machine.

Luces intermitentes: calentando (25 s)

Blinking Lights: heating up (25 sec.)

Luces fijas: máquina lista

Steady Lights: ready

3. Levante la palanca por completo e introduzca la cápsula.

3. Lift the lever completely and insert the capsule.

⚠ ATENCIÓN: nunca levante la palanca mientras la máquina esté funcionando y consulte las instrucciones de seguridad para evitar daños.

📌 NOTA: durante el calentamiento, puede pulsar cualquier botón de café mientras parpadea. El café saldrá automáticamente cuando la máquina esté lista.

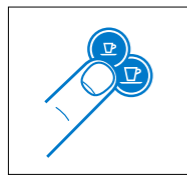

⚠ CAUTION: never lift lever during operation and refer to the safety precautions to avoid possible harm when operating the appliance.

📌 NOTE: during heat up, you can press either coffee button while blinking. The coffee will then flow automatically when the machine is ready.

4. Cierre la palanca y coloque una taza debajo de la salida del café.

4. Close the lever and place a cup under the coffee outlet.

5. Pulse el botón Espresso (40 ml) o Lungo (110 ml) para empezar. La preparación se detendrá de forma automática. Para detener la salida del café o rellenar su taza, pulse de nuevo.

5. Press the Espresso (40 ml) or the Lungo (110 ml) button to start. Preparation will stop automatically. To stop the coffee flow or top up your coffee, press again.

6. Retire la taza. Levante y cierre la palanca para expulsar la cápsula al recipiente de cápsulas usadas.

6. Remove the cup. Lift and close the lever to eject the capsule into the used capsule container.

GENIO^S

KEY FEATURES

ESPRESSO BOOST

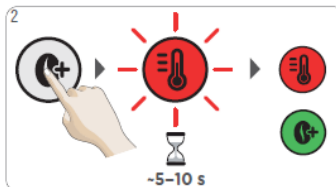

Boost the taste intensity of your espressos.

ESPRESSO BOOST cannot be selected in cold mode. Do not use ESPRESSO BOOST with milk, chocolate and tea capsules.

Check the number of bars shown on the capsule. Prepare ESPRESSO BOOST for capsules identified with level 1, 2 & 3 only.

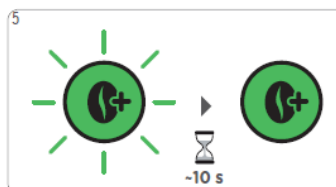

Press the ESPRESSO BOOST button to switch to ESPRESSO BOOST. The temperature selection button blinks while the machine is heating up for approximately 5-10 seconds. Afterwards, the temperature selection button lights steady red. The machine is ready to be used.

Use the control ring to set the volume in accordance with the number of bars shown on the capsule or select the desired volume to your own taste (max level 3).

Press the start/stop button. The beverage preparation starts. Do not open the locking handle during the extraction.

Pre-wetting: The preparation pauses and the ESPRESSO BOOST button starts blinking. After approx. 10 seconds the preparation continues and the ESPRESSO BOOST button is steady green. Wait until the machine stops automatically. The extraction can be stopped at any time manually by pressing the start/stop button.

Enjoy your beverage!

TEMPERATURE SELECTION

Customise the temperature of your coffees to your personal taste. The machine provides you with four predefined settings: cold, low, medium and high.

Check the number of bars shown on the capsule.

Press the temperature selection button to choose the desired temperature of your beverage.

Use the control ring to set the volume in accordance with the number of bars shown on the capsule or select the desired volume to your own taste.

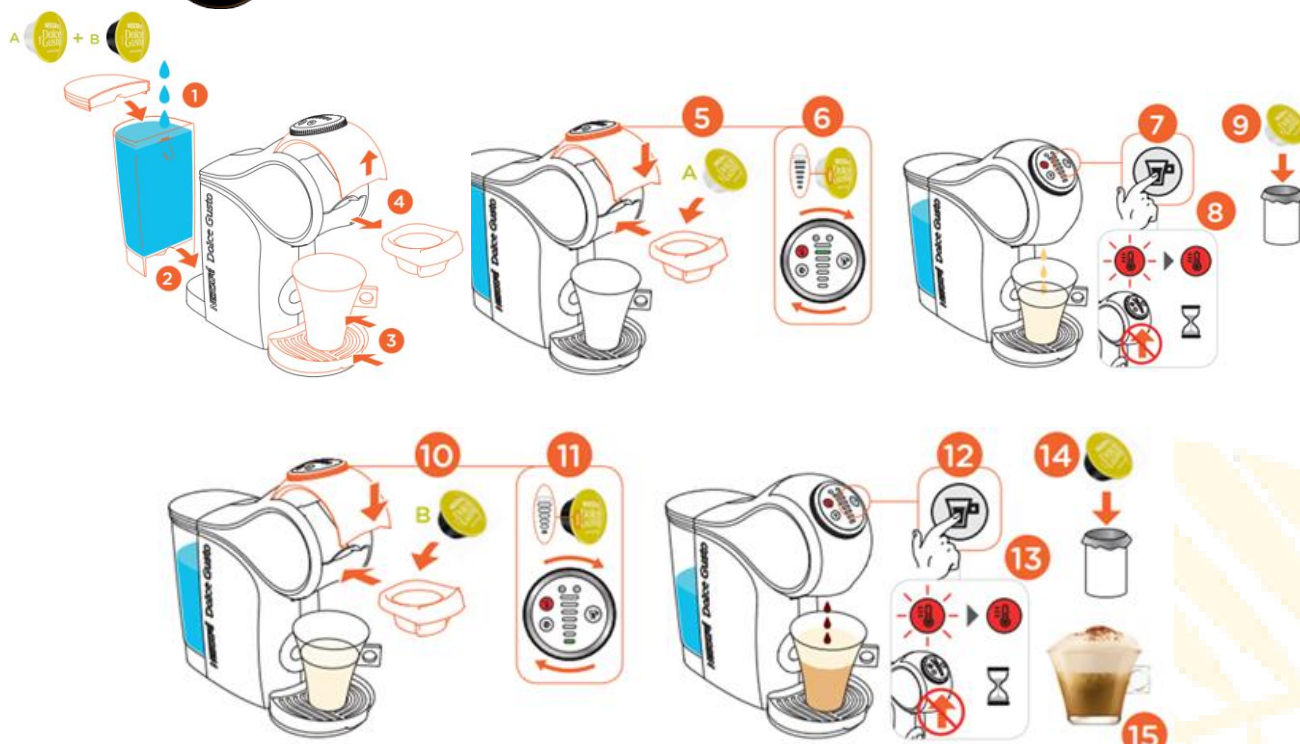

Press the start/stop button. The beverage preparation starts. Do not open the locking handle during the extraction. Wait until the extraction stops. The machine stops the preparation automatically. The extraction can be stopped at any time manually by pressing the start/stop button.

After finishing the preparation, the temperature selection button and the volume display light blink for up to 8 seconds. During that time do not open the locking handle!

Enjoy your beverage!

ONE CAPSULE (E. G. LUNGO)

Adjust the drip tray position. Place the cup with the correct cup size on the drip tray. See "BEVERAGE EXAMPLES" or package. Check if the water tank contains enough fresh drinking water.

Open the locking handle. The machine switches on automatically. The temperature selection button blinks while the machine is heating up for approximately 40 seconds. Afterwards, the temperature selection button lights steady red. The machine is ready to be used.

Make sure the rinsing tool is not inside. Insert the capsule in the capsule holder. Insert it back into the machine. Close the locking handle.

Use the control ring to set the volume in accordance with the number of bars shown on the capsule or select the desired volume to your own taste. Choose XL beverage for an extra big cup. Wait around 1.5 min if you want to prepare a second extra big cup.

Press the start/stop button. The beverage preparation starts. Do not open the locking handle during the extraction. Wait until the extraction stops. The machine stops the preparation automatically. The extraction can be stopped at any time manually by pressing the start/stop button.

After finishing the preparation, the temperature selection button and the volume display light blink for up to 8 seconds. During that time do not open the locking handle!

After the extraction is finished open the locking handle. Remove the cup from the drip tray.

Pull out the capsule holder. Remove the used capsule. Put the used capsule in the dustbin.

Rinse both sides of the capsule holder with fresh drinking water. Dry the capsule holder. Insert it back into the machine. Enjoy your beverage!

TWO CAPSULES (E. G. CAPPUCCINO)

Adjust the drip tray position. Place the cup with the correct cup size on the drip tray. See "BEVERAGE EXAMPLES" or package. Check if the water tank contains enough fresh drinking water.

Open the locking handle. The machine switches on automatically. The temperature selection button blinks while the machine is heating up for approximately 40 seconds. Afterwards, the temperature selection button lights steady red. The machine is ready to be used.

Make sure the rinsing tool is not inside. Insert the first capsule in the capsule holder. Insert it back into the machine. Close the locking handle.

Use the control ring to set the volume in accordance with the number of bars shown on the capsule or select the desired volume to your own taste. Choose XL beverage for an extra big cup. Wait around 1.5 min if you want to prepare a second extra big cup.

Press the start/stop button. The beverage preparation starts. **Do not open the locking handle during the extraction.** Wait until the extraction stops. The machine stops the preparation automatically. The extraction can be stopped at any time manually by pressing the start/stop button.

After finishing the preparation, the temperature selection button and the volume display light blink for up to 8 seconds. **During that time do not open the locking handle!**

Open the locking handle. Pull out the capsule holder. Remove the used capsule. Put the used capsule in the dustbin.

Insert the second capsule in the capsule holder. Insert it back into the machine. Close the locking handle.

Use the control ring to set the volume in accordance with the number of bars shown on the capsule or select the desired volume to your own taste.

Press the start/stop button. The beverage preparation starts. **Do not open the locking handle during the extraction.** Wait until the extraction stops. The machine stops the preparation automatically. The extraction can be stopped at any time manually by pressing the start/stop button.

After finishing the preparation, the temperature selection button and the volume display light blink for up to 8 seconds. **During that time do not open the locking handle!**

When the indicator light is steady green open the locking handle. Remove the cup from the drip tray.

Pull out the capsule holder. Remove the used capsule. Put the used capsule in the dustbin.

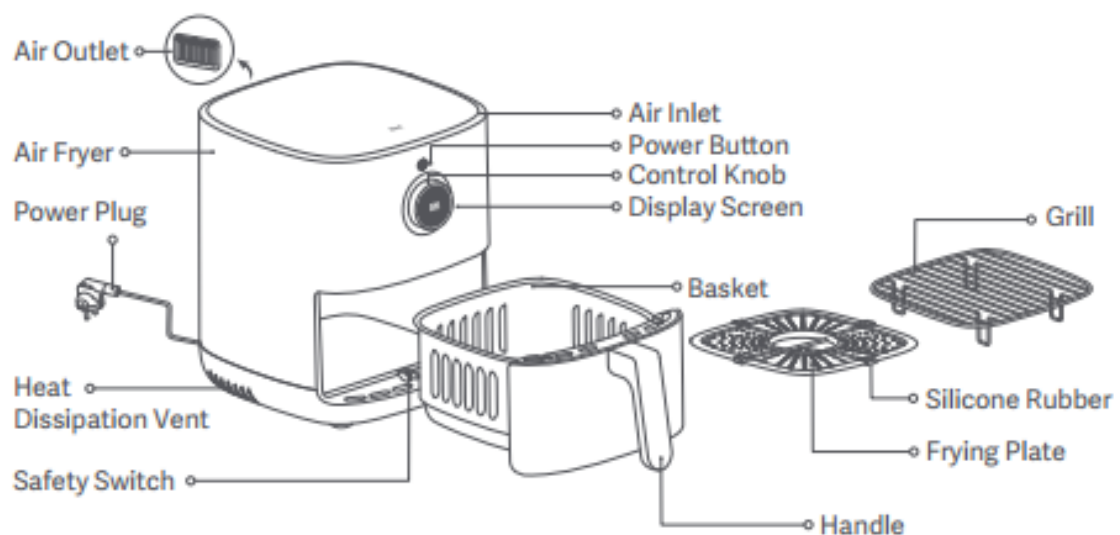

Rinse both sides of the capsule holder with fresh drinking water. Dry the capsule holder. Insert it back into the machine. Enjoy your beverage!

Air Fryer Xiaomi

Product Overview

Notes: 1. The silicone rubber used in the air fryer is made of high temperature resistant food grade materials to prevent the edges of the frying plate from scratching the coating of the basket and to improve the stability of the frying plate. Do not remove the silicone rubber from the frying plate.

2. Ingredients that are too small are not suitable for use on the grill. Please make sure that ingredients don't fall through the gaps in the grill.

Control Knob

1
Press to confirm selection.

2
Press and hold for 0.5 seconds to return to the previous menu.

3
Turn left/right to change functions.

4
Press the power button to turn on/off.

How to Use

Connect the power cord and press the power button to turn on the air fryer.

Note: Press the power button to turn on the air fryer for the first time, "Enable Wi-Fi" will be displayed, if you do not operate it for 30 seconds or select No, the Wi-Fi will remain disabled, and if you select Yes, the Wi-Fi indicator will blink and Wi-Fi will be enabled.

1. Turning on

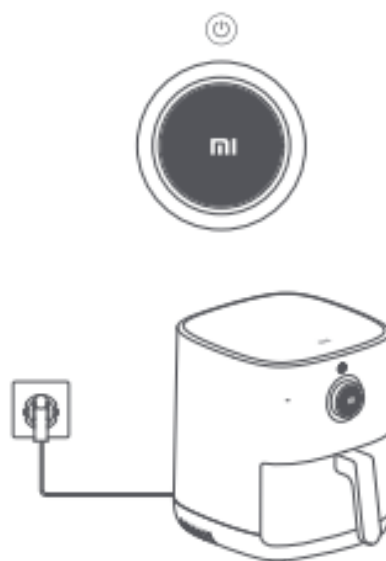

- Connect the power cord and press the power button to turn on the air fryer.

2. Turning off

- Press the power button to turn off the air fryer, regardless of the state it is in.

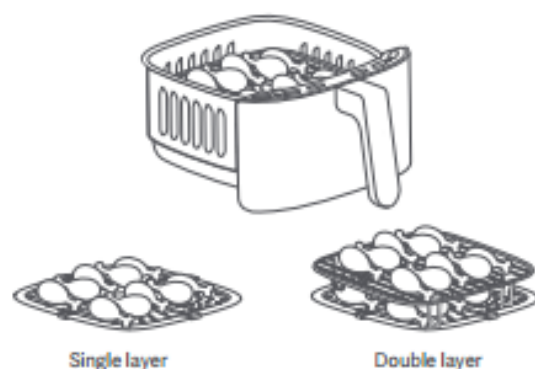

Starting a cooking program

1. Place the air fryer on a stable, level surface and ensure that there is air circulation around the air fryer.

2. Place the frying plate into the basket and add the ingredients one by one. If there are more ingredients, use the grill to place them in two layers.

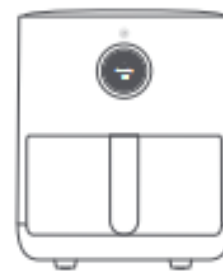

Note: Stacking ingredients without using the grill will affect the cooking.

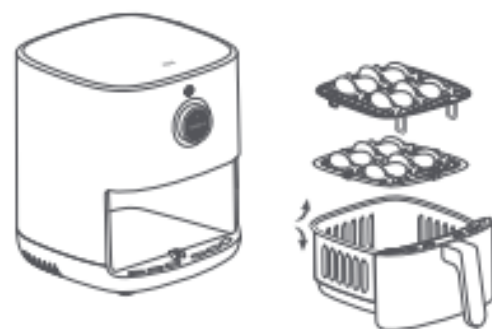

3. Once the basket is completely inserted into the air fryer, press the power button to turn it on, and turn the control knob to select the menu for the corresponding cooking program and press the control knob to confirm. Then press the control knob to select the amount of ingredients (single layer/half/full/double layer), and finally press the control knob to confirm and start cooking.

Notes:

1. The cooking time and temperature can be adjusted by turning the control knob during cooking.
2. Once you turn the control knob to adjust the cooking time or temperature, you need to press the control knob to confirm, otherwise it will continue to cook at the original time and temperature after five seconds.

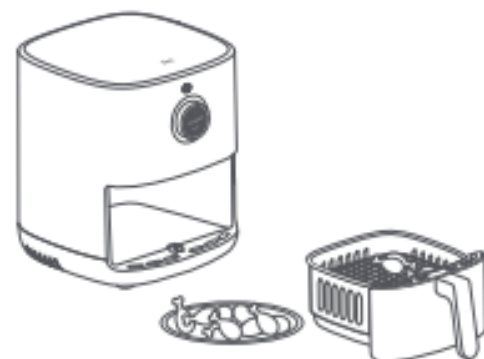

4. Some ingredients need to be turned over during cooking, please follow the air fryer's instructions and pull out the basket to turn over the ingredients, then place the basket completely back into the air fryer and press the control knob to continue cooking.

5. The air fryer will beep and "Program completed" will appear on the display to indicate that the cooking program has been completed. Carefully take out the basket and use clamps to remove the food.

Caution: When cooking is completed, the basket is very hot, so do not touch it to avoid from getting scalded.

Other Operations

1. Language settings

- Turn on the air fryer, go to settings, and press the control knob to enter the language selection screen.
- Turn the control knob to the desired language and press it to confirm.

2. Manual mode

- While standby, turn the control knob and select the manual mode, press it to set the temperature and turn it to adjust to the desired cooking temperature, then press it to set the time and turn it to adjust to the desired cooking time, and press it to start the above set program.

3. Turning over the food

- If the cooking time is more than 8 minutes (except for cake and dried fruits), the air fryer will remind you to turn over or shake the food.
- "Please shake the food" will blink on the display screen, and it will beep three times. Please pull out the basket, turn over or shake the food, and then completely insert the basket back into the air fryer.

4. Scheduled cooking

- While standby, turn the control knob and select the schedule function, set the completion time, cooking program, cooking temperature and time, and press the control knob to confirm and start the scheduled cooking program.
- Once the scheduled time is over, the air fryer has completed the scheduled cooking program.

Note: The scheduled time here is the scheduled completion time, for example six hours, which means cooking will be completed in six hours, and the scheduled time cannot be shorter than the cooking time.

5. Pausing

- Press the control knob to pause the cooking program while cooking.
- Press the control knob to continue the cooking program while it is paused.

6. Stopping program

- Press and hold the control knob for 0.5 seconds, the display screen indicates to confirm the cancellation of the current cooking program, turn the control knob and select yes or no. Once cancelled, it will enter standby mode.
